SHARED VISION FIRST

Every effective educator has a clear vision; a vision for student success. Together, the vision of members of the school community becomes the shared vision!

The Center for Integrated Training & Education (CITE) can help make that vision a reality. CITE consultants are uniquely qualified to provide CTLE certified professional development in a number of areas. CITE also offers a variety of parent workshops in a number of languages that can further support the unique needs of any school community.

Our ultimate goal is to serve as an extension of the "shared vision."

You name the need and we will provide the customized support whether it be individual mentoring, teacher , or parent workshops.

CTLE

All staff workshops are CTLE-approved. Teachers will earn hours for their time.

CITE's PD sessions and workshops can be done on-site or ONLINE!

PARENT ENGAGEMENT

PARENT ENGAGEMENT

Let us help you build that home/school connection by offering a variety of parent workshops designed to address the needs, interests, and concerns of many parents!

Our 60-90 minute parent workshops will address both academic and social issues that parents have requested over a number of years. They can be presented during the school day, evenings, or weekends in English, Mandarin Chinese, Spanish and Italian as well.

Now offering Virtual / Remote PD for staff and parent workshops.

- Understanding Section 504 and IDEA Regulations
- Engaging the Entire Faculty in Developing Shared Vision
- Effective Management During and After a Crisis

CITE can help remotely or in-person. Here are some of the areas schools will need to address:

INSTRUCTIONAL SUPPORT

SPECIAL EDUCATION

Is your special needs population meeting their annual yearly progress goals? Our facilitators will work with your teachers to improve their effectiveness as well as student achievement.

USING DATA TO DRIVE INSTRUCTION

Are your teachers using data effectively? Our facilitators can train your teachers to use data as a helpful and effective tool to improve instruction and maximize student performance.

QUESTIONING & DISCUSSION TECHNIQUES

Studies have shown that 80% of teacher questions are low-level inquiries, not the higher-order thinking questions students need to answer on assessments.

CITE'S PD SESSIONS AND WORKSHOPS CAN BE DONE ON-SITE OR ONLINE!

SUPPORTING ELLS IN THE MAINSTREAM CLASSROOM

Each and every day, teachers are instructing students who are still learning English. Teachers need to know the basic fundamentals of language acquisition and strategies to address each stage. Let our team of CITE consultants empower your staff by giving them the tools they need to instruct their ELL students.

READING/WRITING CONNECTIONS: "THE WORKSHOP MODEL"

Do your teachers really understand the standards? Are they familiar enough with the various levels of proficiency to effectively and fairly assess student progress? Our facilitators will enable teachers to achieve maximum consistency in their evaluations of student work.

The recent implementation of the School Improvement Process by NY State has resulted in increased awareness and self-reflection on the part of all stakeholders in a particular school. From the implementation of the "Improvement Planning" to the day to day delivery of classroom instruction, educators are now taking a closer look at what is going on in schools and asking the infamous question...

"How are we doing?".

CITE consultants have been trained state supported evidence-based strategies such as instructional coaching, Professional Learning Communities, elementary looping, middle school flexible scheduling, RTI and more.. So we can assist in plan preparation and provide concrete, relevant, meaningful feedback that will guide administrators, teachers, and parents through the process. This support is accomplished by meeting with administrators and parents, touring classrooms, talking to students, and conducting teacher workshops.

We assist in the on-site needs assessment, review of required data, conducting surveys, and the identification of evidence-based interventions and strategies as defined by the State.

Now offering Virtual / Remote PD for staff and parent workshops.

PRINCIPAL'S PERFORMANCE OBJECTIVE

All CITE consultants are recently retired former New York/LI administrators who are well trained in the implementation of the instructional focus.

We can therefore assist in assessing the practices, processes, structures and systems that administrators have put in place in order to insure the implementation of their instructional focus.

We will leave principals with a blueprint for success as we focus on the Instructional Focus Implementation. We will examine the structures in the school that promote high quality instruction that is sustainable, data based, and rich in meeting the individual needs of each student.

Now offering Virtual / Remote PD for staff and parent workshops.

THE COMPREHENSIVE EDUCATIONAL PLAN

The Comprehensive Education Plan (CEP), is no longer a “paper exercise”! It is the living roadmap that guides all aspects of the educational environment through the “avenues” of the school year.

CITE consultants are all trained in CEP development and implementation.

SOCIAL EMOTIONAL LEARNING

Social and Emotional Learning, (SEL), provides a solid base for safe and positive learning in addition to enhancing students' ability to succeed in school, future careers, and life.

CITE consultants have the knowledge-base and experience to empower your staff with the required skills and techniques to help students understand and manage their behaviors and emotions, set positive goals, engage in positive relationships, and solve problems effectively.

ADVANCED LITERACY SKILLS

Advanced Literacy reflects and recognizes a change in educational needs in our culturally diverse society. CITE has therefore retained a number of education consultants specifically skilled in the area of Advanced Literacy. Allow our consultants to assist educators as we enable students to communicate in increasingly diverse ways to promote the understanding and use of text for a variety of purposes.

EQUITY

Help support your faculty in providing every child in every classroom a rigorous, inspiring, and nurturing learning experience regardless of family income, race, nationality, disability, language spoken at home, sexual orientation, or gender identification.

DANIELSON'S FRAMEWORK FOR EFFECTIVE TEACHING

Experience our workshops and in-class support
as we explore each of Danielson's domains, including:

- Setting instructional goals, (i.e. using data to drive instruction).
- Designing coherent instructional programs and assessments based on student needs.
- Creating an environment of mutual respect and enhanced student rapport.
- Managing classroom procedures, routines and pupil behavior.
- Establishing a culture for learning in the classroom.
- Using effective questioning and discussion techniques to foster high order thinking skills.
- Enhancing students' critical thinking skills through Depth of Knowledge theory.

College Access for All, (CAFA), is part of the mayor's ambitious "Equity & Excellence" agenda to ensure all New York City middle and high school students realize their full potential in life.

Through the implementation of college campus visits for students and parents, the CAFA curriculum, and teacher/parent workshops, CITE can provide the support needed to guarantee the school community sees "the big picture" when it comes to setting concrete college bound goals.

COLLEGE ACCESS FOR ALL

Our experts will train staff on how to implement the NYC College Readiness Curriculum. We can help your students not only build the skills to succeed, but to see the big picture -- to have a concrete goal in mind when they think about college.

We help parents and teachers focus on college readiness, so that they can help prepare students. Students and parents see college life by visiting college campuses. Our extensive contacts at colleges allow us to facilitate meetings with college professors.

Now offering Virtual / Remote PD for staff and parent workshops.
